

Africa Goodwill Meditation Group Skype meeting and Lagos, Nigeria Seminar

We send you very warm greetings from Nigeria.

The Festival Week was very memorable, by far the most impressive I have experienced in my 56 years working with Arcane School and Lucis Trust. Probably this has something to do with the fact that it is the global spiritual event before the first Hierarchical Conclave of 2025, the first in the 21st century! The preparatory stage appeared to be the most inspiring; we had to explore the meaning and significance of the Global Silent Minute which gave universality to the Festival Week.

A Skype meeting was held on December 21st when co-workers from across the continent took part in a discussion on the meaning and significance of silence, in preparation for the exact time when the group, together, entered the Global Silent Minute. Our discussions on silence assumed a wide dimension and we agreed to make it the subject of our Festival Week Seminar in Lagos which took place on the 28 December.

At the Lagos seminar Harry Juwe spoke on the theme: *The Power of Silence in Serving Humanity and the Divine Plan*. The discussions were animated and diverse and all of us learnt something new.
